

ARGYLE CREEK WATER COMMISSIONER'S REPORT

July 12, 1964

By: John Bene - Court-appointed water commissioner

Upper Winner Place (old Gibney place): No water being diverted. No authorized diversion.

Old Houskeeper: No water being diverted.

Pressett place: 9" Parshall flume, 0.50 cfs.

Neve Winner place: 9" Parshall flume, 1.40 cfs.

Henry Mills place: South side: 9" parshall flume - 1.10 cfs.  
North side: 9" Parshall flume - 1.00 cfs.

Hayes Place: 9" Parshall flume - 0.85 cfs. (Note: Parshall flume badly damaged by flood last fall; flume readings will be reading high.)

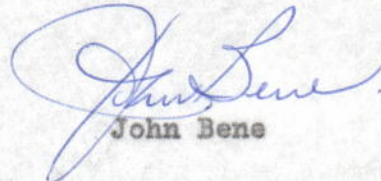

Preston Nutter Corp.: South side: 12" Parshall flume - 0.80 cfs.  
North side: 12" Parshall flume - 2.85 cfs.  
Below Ranch Headquarters: 12" Parshall flume, 0.60 cfs.

Henry Mills has certificated right in addition to the Johnson decreed right.

Preston Nutter Corp. has two filings on which final proofs have been completed. This entitles the corporation to use of water in addition to decree.

Ranchers are in the process of putting up hay.

Note: Nine Mile Creek at the Mel Keel diversion is 2.38 cfs.

  
John Bene
